SUMMARY

- Senior UX/UI & Product Designer with 6+ years of experience designing user-centered, enterprise-scale digital products across fintech, capital markets, payments and SaaS domains.
- Expert in end-to-end product design — user research, information architecture, wireframing, high-fidelity prototyping, usability testing and scalable design systems.
- Skilled with Figma (Dev Mode), Adobe Creative Suite and AI-augmented workflows (Claude, Copilot, Cursor); accessibility-conscious design to WCAG standards in agile environments.
- Proven record of delivering production-ready experiences across 15+ product engagements for global enterprises including Nasdaq, Ingenico, Komatsu and BrightView.

WORK EXPERIENCE

Altimetrik

Dec 2024 - Present

Senior Engineer — User Experience | Full-time · Chennai, India

Senior UX Designer at Nasdaq

Jan 2026 - Present

Client engagement | Calypso — capital markets & treasury platform

- Designing intuitive, scalable experiences for complex, data-driven financial platforms — leading UX across Calypso's Security Finance and Collateral Management streams.
- Turning margin, exposure-netting and collateral-inventory workflows into legible, high-density trading screens — keyboard-first flows and design-system-aligned, dev-ready specs validated with traders and operations teams.

Senior UX Designer at Ingenico

Dec 2024 - Dec 2025

Client engagement | Unified developer portal — payments

- Led end-to-end UX for Ingenico's unified developer portal, transforming a fragmented multi-product portal into one self-service ecosystem.
- Streamlined onboarding from sign-up to "Hello World" integration through SSO, guided workflows, API documentation and test-terminal ordering — cutting integration time by 60%.
- Conducted user research, redesigned the information architecture and built a scalable design system, reducing onboarding friction and support dependency.

Softura Pvt. Ltd.

Mar 2021 - Feb 2024

UX Designer | Full-time

- Created user-centered digital solutions across three years of enterprise engagements — research, wireframes, prototypes and high-fidelity interfaces, in close collaboration with cross-functional teams.
- Delivered Komatsu's fleet dashboard (machine health, coverage, alerts, parts inventory, bill of materials), Fleet Cost & Care management modules and USSSA tournament operations.

Scripters Zone

Mar 2019 - Mar 2021

UI/UX Designer

- Designed user-friendly web and mobile interfaces; created wireframes and prototypes in Adobe XD, ensuring design consistency and brand adherence.

CORE EXPERTISE

- **Design & Research:** UX research, design thinking, usability studies, user journey maps, problem solving, graphic design
- **Structure & Systems:** information architecture, design systems, wireframing, prototyping, design-to-code handoff
- **Tools:** Figma (Dev Mode), Adobe XD, Sketch, InVision, Photoshop, Illustrator, After Effects
- **AI-Augmented Workflow:** Claude, Codex, GitHub Copilot, Cursor, prompt engineering
- **Delivery:** WCAG accessibility, agile/scrum collaboration, stakeholder management, dev handoff

PROJECT EXPERIENCE

Nasdaq — Calypso

8 months

Enterprise Web | Capital Markets & Treasury | UX/UI Designer

- Crafted user-centered enterprise experiences for trading, collateral and risk management across Calypso's cross-asset, front-to-back platform spanning 12 product streams.
- Combined UX research, interaction design and modern UI systems to deliver scalable, design-system-driven, production-ready solutions.

Ingenico — Developer Portal

12 months

Web Platform | Payments / Developer Experience | UX/UI Designer

- Unified a fragmented developer portal into one self-service ecosystem — self-service onboarding, SSO, API documentation and test-terminal ordering.
- Reduced onboarding friction and support dependency with a redesigned IA and a scalable design system.

Komatsu — My Komatsu Fleet Dashboard

10 months

Enterprise Web | Heavy Equipment / IoT | UX/UI Designer

- Designed the fleet dashboard for 500,000+ connected machines — machine details, health monitoring, coverage management, alert systems, parts inventory and bill of materials.

Fleet Cost & Care

6 months

Fleet Management SaaS | UX/UI Designer

- Delivered modules spanning organization hierarchy, rental quotes, configure-price-quote, company, user, project, department and region management for crane, rigging and construction fleets.

USSSA

12 months

Sports Operations Platform | UX/UI Designer

- Implemented venue, field, officials and schedule management with automated match fixtures for a national sports governing body running 8,000+ events a year.

BrightView — LEADR

6 months

Enterprise Web | Commercial Landscaping | UX/UI Designer

- Delivered order management, bulk order management, rebate management and revenue management modules with multi-level approvals for the largest commercial landscape company in the US.

EDUCATION

B.Sc. Computer Science — Kathir College of Engineering

2016 - 2020

CGPA: 7.2

HSC (82%) & SSLC (90%) — M. Nanjappa Chettiar Matric. Hr. Sec. School

2013 - 2015
